## VOICE OVER SERVICES

### ABOUT

Originally from Southeast England, I moved to the Czech Republic as an English teacher in 2002 and began voice acting in 2010, mainly reading audio guides for tourist destinations around the country.

Since then I have moved on to corporate narration, radio imaging, commercials, e-learning, character voices, documentaries, and films, many of which I also translate from Czech to English, proofread, and create subtitles for.

I record and produce almost exclusively from my own custom-built home studio.

### VOICE CREDITS

- S.T.A.L.K.E.R. 2: Heart of Chernobyl (GSC Game World)
- Orest Leere and His Marvelous, Mysterious, Malicious Empathy Machine (Jeff Smith)

## TESTIMONIALS

Lukáš Haupt - GoodShape/TourStories

What we appreciate about Richard is not only his captivating voice, which he has lent to some of our audio guides of Czech cities, but also the precision of technical processing of audio recordings, his great communication and time flexibility.

Jeff Smith - Director

I'm located in Canada, so our recordings were done via correspondence. Richard nailed the voice-over on the first take, finding the right tone for the performance. Additionally, his recordings were of exceptional quality, so there were no adjustments required from the post production sound department.

Kristian Fitsall - Director

An incredible voice! Super friendly, delivered the voice over quickly and to a high standard. Pleasure to work with.
